INTERCULTURAL CONFLICT STYLES & FOUNDATIONS OF INTERCULTURAL COMPETENCE: 16 HOURS TRAINING

Content: As we live, work and manage in an increasingly multicultural society, our success depends more and more upon our ability to recognize and respond appropriately to "cultural" differences. This workshop will give you practical tools to heighten awareness needed to effectively engage with your colleagues and constituents.

Objectives: 1. Participant will leave with greater awareness of how culture impacts our cognitive and behavioral response to differences.

2. Participants will learn to be more self and other aware in conflict.

3. Participants will better understand differences that may make a difference when interacting across cultural differences and commonalities in conflict.

4. Begin to practice skills to bridge across differences

WHAT IS INTERCULTURAL CONFLICT STYLES MODEL

The ability to recognize and appropriately respond to “cultural” differences in conflict style is critically important in effectively managing and resolving conflicts. The practical “four-quadrant intercultural conflict style model” developed by Dr. Mitchell Hammer provides a rich framework for increasing competence in cross-cultural conflict resolution. This model identifies two core, culturally-learned approaches: (1) direct or indirect strategies for resolving disagreements and (2) emotionally expressive or restrained approaches for dealing with conflict. Combining these approaches results in four cross-cultural conflict styles: discussion, engagement, accommodation and dynamic.
The intercultural conflict style (ICS) inventory, developed by Dr. Hammer, is the premier assessment tool for identifying fundamental approaches for resolving conflict across cultural and ethnic differences. The ICS inventory, based on the four-quadrant intercultural conflict style model, is a self-scoring, easy to use, statistically valid and reliable instrument that will be used during the workshop.

Faculty: Mitchell R. Hammer, Ph.D.

Dr. Mitch Hammer is President of Hammer Consulting, an intercultural consulting firm and professor emeritus in International Peace and Conflict Resolution from the American University in Washington, D.C. He consults with federal agencies such as the NASA Johnson Space Center, the Federal Bureau of Investigation, and the National Institutes of Health, as well as numerous corporations. Mitch Hammer has published widely, with over fifty articles in various academic and professional books and journals. His book, Dynamic Processes of Crisis Negotiation: Theory, Research and Practice (1997), co-edited with Randall Rogan and Clinton R. Van Zandt, was honored with the “Outstanding Book Award” in 1998 by the International Association of Conflict Management. In addition, Mitch Hammer has developed the S.A.F.E. approach for resolving hostage/crisis incidents as well as the Intercultural Development Inventory with Milton Bennett.

**Foundations of Intercultural Competence Workshop Objectives:**

1. This workshop will introduce participants to the Intercultural Development Continuum that the Intercultural Development Inventory (IDI) is based. Participants will gain a deeper understanding of how people generally experience cultural differences, their strengths and developmental needs to be more effective when interacting across cultural commonalities and differences.

2. This workshop will also introduce participants to the different approaches to diversity & inclusion work and common words, language, definitions and their current meanings. Participants will gain a deeper understanding of how diversity & inclusion work has changed and evaluated over the years and the current impact on their ability to be more effective across cultural commonalities and differences.

3. In addition, this workshop will introduce participants to multiple perspectives of their identity. Participants will gain a deeper understanding of how we are all multicultural beings and that any one of our identities could change or be more under stress in different context. Participants will also gain a deeper understanding of how not to project that stress on other people’s experience.

4. Last, this workshop will introduce participants to key intercultural skills vital to effectiveness across differences.
