^A If both an arrest and disciplinary referral are made, only the arrest is counted.

* During the annual statistical review, one rape was found to have been counted only in the Student Residences category. It has been added to the Campus count.
Disciplinary Actions 2016 - 2018

In compliance with the Clery Act, disciplinary referrals are counted when a violation of the law is referred to a university official for possible administrative sanction.

Hate Crimes (2016-2018)

2016 - There were eight hate crimes reported in 2016. Five of those cases were vandalism incidents based on religion in which swastikas were painted on signs in various locations on campus.39 There was another vandalism case in which a racial epithet was marked on a restroom mirror. There was one reported case of a threat of physical violence that targeted an individual based on perceived sexual orientation. There was one reported battery targeting an individual based on race.

2017 - There were 22 hate crimes reported in 2017. All 22 cases were vandalism incidents based on religion in which swastikas were painted on signs or surfaces, eight in campus residences and the remaining 14 in various locations on campus.

2018 - There were four hate crimes reported in 2018. In one vandalism incident, a disabled parking sign was defaced on campus. A second vandalism incident occurred in a student residence, in which a sign commenting on national origin was affixed a resident’s door in a way that damaged the door. Two thefts included an element of bias against a religion, one inside a student residence and one on campus.

Unfounded Crimes (2016-2018)

As noted in the above table, there was one unfounded burglary in 2016. The property reported burglarized was later found inside the residence.

In 2017, there was one burglary unfounded; the item reported stolen from the residence had been misplaced by the owner.

In 2018, there were two rape incidents unfounded through police investigations. In one case, the incident was reported by another person; the victim refuted the claim and submitted evidence to confirm her statement. In the second case, a woman in a student residence was reported by a third party for screaming about a sexual assault. When deputies contacted the female, who was found to be heavily intoxicated on an illegal substance, there was no evidence of a sexual assault or any corroborating statements from the parties involved. A burglary was unfounded when the student who reported a laptop taken from a dorm room recovered it from a friend; the friend had mistaken the laptop as their own.

39 During the annual statistical review, two swastika cases were found unreported in the 2016 ASR, updating the previously published total of three swastika cases to five.
