Disciplinary Actions 2017 - 2019

In compliance with the Clery Act, disciplinary referrals are counted when a violation of the law is referred to a university official for possible administrative sanction.

Hate Crimes (2017-2019)

2017 - There were 22 hate crimes reported in 2017. All 22 cases were vandalism incidents based on religion in which swastikas were painted on signs or surfaces, eight in campus residences and the remaining 14 in various locations on campus.

2018 - There were six hate crimes reported in 2018, four vandalisms and two thefts. In one vandalism incident, a disabled parking sign was defaced on campus. A second vandalism incident occurred in a student residence, in which a sign commenting on national origin was affixed a resident's door in a way that damaged the door. Another vandalism with an element of bias against religion occurred at a concert hall on campus, where a piano had a swastika carved into the wood. A restroom on campus was vandalized with graffiti indicating bias against national origin. Two thefts included an element of bias against a religion, one inside a student residence and one on campus.

2019- There were five hate crimes on campus in 2019, two cases of battery (classified as simple assault in the Clery Act) and three intimidations. In one battery case, the victim was pushed from her bike by a suspect who used a racial epithet. In the second battery case, the victim was pulled by their backpack, an act they believe was motivated by racial bias.

In one of the cases of intimidation, a threatening message was written to the victim, directing racial epithets at the victim in a campus residence. In another intimidation case, a victim believes he and his friends were targeted with a threatening gesture by a passerby, based on the victim's race. The third case of intimidation, based on race, involved the discovery of cord that was 1/4" in diameter, in the shape of a noose, found in a large bush.

Unfounded Crimes (2017-2019)

In 2017, there was one burglary unfounded; the item reported stolen from the residence had been misplaced by the owner.

In 2018, there were two rape incidents unfounded through police investigations. In one case, the incident was reported by another person; the victim refuted the claim and submitted evidence to confirm her statement. In the second case, a woman in a student residence was reported by a third party for screaming about a sexual assault. When deputies contacted the female,

who was found to be heavily intoxicated on an illegal substance, there was no evidence of a sexual assault or any corroborating statements from the parties involved. A burglary was unfounded when the student who reported a laptop taken from a dorm room recovered it from a friend; the friend had mistaken the laptop as their own.

In 2019, there was a sexual assault that was unfounded when the victim in the case admitted to falsifying the report. Additionally, there was a case in which a car was reported stolen from an off-campus university residence, but the owner later recalled having parked it in another location. An aggravated assault was unfounded when lab results revealed no intoxicants in the system of a victim who reported being drugged, and the investigation found no other foul play or intent.

Crime Statistics Notes

32. *Crime and fire statistics reported in this publication are for the main Stanford University campus, located in unincorporated Santa Clara County. Stanford Health Care and the Lucile Packard Children's Hospital are separate legal entities from Stanford University and from each other. The Stanford Health Care Adult Hospital at Stanford and the Lucile Packard Children's Hospital at Stanford are physically contiguous to the Stanford University campus. Because of their proximity to the Stanford University campus, and because medical students receive training at these medical facilities, the Department of Education has advised Stanford University to count Clery-reportable incidents occurring at the Stanford Health Care Adult Hospital at Stanford and the Lucile Packard Children's Hospital at Stanford as "on campus" crimes. Incidents at the Stanford Linear Accelerator National Laboratory (SLAC), located in San Mateo County, are also counted as taking place on the Stanford University Campus.*

Also included in this publication are statistics for locations which Stanford University owns or controls, which are used by students, which are not contiguous to campus, and which do not meet the definition of a separate campus (see next note for definition). These locations could be a student residence in a neighboring city or an academic building in another county, for example. Incidents that occur at these locations are considered "non-campus" and are included in the statistics compiled in the main campus publication. The counting and reporting of data contained in this publication is performed in accordance with guidance contained in the Handbook for Campus Safety and Security Reporting, produced by the U.S. Department of Education and the Code of Federal Regulations.

33. *A "separate campus" is a Clery term that defines a location owned or controlled by the institution, which is not reasonably contiguous to the main campus, has an organized program of study and has on-site administrators. A "branch campus" is a type of "separate campus". To be considered a "branch campus," the location must be geographically apart and independent from the main campus. Further, it must be permanent in nature, have its own faculty and administrative organization and offer courses leading to a degree or credential. A "foreign campus" is another type of "separate campus." A location will be classified as a "foreign campus" if the location is in a country other than the U.S.; a U.S.-based institution owns or controls the property or facility; there is an organized program of study; and there are administrative personnel on site.*

34. *The Clery Act does not provide a federal definition of consent.*

35. *According to the FBI Uniform Crime Reporting System, Part 1 Crimes are crimes against persons or property. In situations in which more than one crime is committed, the hierarchy rule of the FBI Uniform Crime Reporting system requires only that the most serious offense be recorded for a single incident. As an exception to this rule, a sexual assault will always be recorded in the institution's annual statistics when a murder occurs in the same single incident. Furthermore, beginning in 2013 with the passage of the Violence Against Women Act, crimes that meet the definitions of dating violence, domestic violence, stalking, arson, and hate crimes will always be counted separately.*

36. *Multiple cases involving long-term, abusive relationships account for over 40 of the incidents counted under domestic violence.*

37. *The Burglary of each room is a separate offense. This means that if an offender unlawfully enters five dorm rooms on one floor of a student housing facility for the purpose of taking something, this incident counts as five Burglaries. Similarly, if a burglar enters five separate bedrooms accessible from a single point of entry, such as a suite, then this single incident counts as five burglaries.*
38. *Most incidents of Dating Violence are subsumed by the definition of Domestic Violence, if both state and federal definitions are considered. When an incident satisfies both definitions, it will be classified as Domestic Violence only. For statistical recording, each incident is counted once.*
